

**Notes**

- The Health Humanities minor consists of 5 courses (19 credits fulfills this minor due to a 3 credit course requirement from MCPHS).
- Health Humanities is an interdisciplinary minor including the following departments: Chemistry, Economics, English, History, Nutrition, Philosophy, Sociology, Women’s & Gender Studies, and others.
- Health Humanities is the study of human health and wellbeing. Multiple methodologies are utilized in order to gain deep insights into the human condition, such as reflection, careful textual analysis, critical thinking, contextualization, shared experiences in healing as well as receiving treatments.
